

2022 CWGA Day's Play Leaderboard Thursday, April 14, 2022

There was one (1) player who played 9 holes.

There were seven (7) players who started and 2 players completed 18 holes.

There were no payouts for the day, not enough players finished.

There needed to be a minimum of four (4) members playing 9 holes and four (4) members playing 18 holes to have a payout in each group (a foursome is not required, but you **must** play your round with a CWGA member).
