A minimum of eight (8) 18-hole rounds or sixteen (16) 9-hole rounds must be posted to GHIN on Play Days during the CWGA calendar year to determine the Most Improved Player. CWGA calendar year is April 1st through October 31st. The Most Improved Golfer is determined by USGA GHIN system. The player's Handicap Index must be active in GHIN before April 1st to be considered for Most Improved Golfer.

Instructions for determining the Most Improved Golfer

Add 12 to the player's Handicap Index at the start date. This value is A. Add 12 to the player's Handicap Index at the end date. This value is B.

Divide value A by value B, calculating to three decimal places. This is the improvement factor. **The player with the highest improvement factor should receive the most improved player award.**

Example:

Starting Handicap Index: 24.3 | Ending Handicap Index: 16.2

Value A: $24.3 + 12 = 36.3$ | Value B: $16.2 + 12 = 28.2$

A / B: $36.3 / 28.2 = 1.128$

Improvement factor: 1.128
